## Initial situation and requirements

---

### Installations

---

Create a new installation profile.

Project: [Skin and Bones Physio/Health Wiki](#), Project: [Skin and Bones Physio/Health Wiki Test System](#)

Link to the Hallo Welt! internal test system:

### Project history

---

| Year        | Milestone                                                                                                                                                          | Contact           |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 2018<br>/02 | Custom: BlurTag for text areas                                                                                                                                     | John<br>Doe       |
| 2018<br>/01 | First installation of BlueSpice pro Standard with power workshop regarding structure and configuration, admin training and specifications for special requirements | Maria<br>Prüfling |

### Technical notes for Maintenance and Support

---

- External Access:
- Internal deployment notes:
- Special processes (e.g, maintenance cycles, cooperation partners, handling of staging system ...):

### Marketing and Sales

---

- Special contractual arrangements (maintenance, framework contract): none
- Usable screenshots: none

### Other notes and experiences

---
